**The hottest partyband in the universe**

Founded at the turn of the millennium, THE BAD POWELLS have soon become a benchmark for 70ies and early 80ies soul & disco music: An irresistible mix of perfect musicianship and exceptional fun will captivate all audiences and take them on a crazy trip back in time!

There's hardly a classic that they haven't put their mark on: With love and respect for the originals, maximum danceability - and always a little touch of irony...

These are the ingredients that make their performances so unique: While making no compromises in musical quality, the band members take themselves somewhat less seriously - and the party starts right on stage, spreading like wildfire! With around 1000 concerts under their belt, they've proven to be a favourite among countless organizers and promoters, who love to give their galas and corporate events that special disco touch!

Their club gigs are a rare but iconic treat for their fans. The whacked out costumes of the band are only surpassed by the audience's crazy outfits as they join in the fun – playing with stylistic elements of the disco era while ironically emphasizing the different musicians' peculiarities.

On top of all that, it's their gorgeous lead singer Foxy Pearlwhite whose wits, charm and seemingly inexhaustible power make the party a truly memorable experience!

## **THE GOOD, THE BAD & THE JAZZ:**

While the band's focus is clearly on THE BAD POWELLS disco show, they have more to offer on request:

### **THE GOOD**

Should you want to start your party a little more smoothly, THE GOOD POWELLS are a perfect "opening act": Heavily disguised in black suits and without wigs, they offer a variety of pop & soul classics from Aretha Franklin, The Blues Brothers or Stevie Wonder to Carole King. A nice way for the guests to get grooving...

### **THE JAZZ**

In case you'd like the craziness factor of THE BAD POWELLS at a significantly lower volume, you also have the chance to go for a quite unusual option: In November 2003, THE JAZZ POWELLS made their debut (very much in style at the famous Viennese "Jazzland")! They play in black suits and wigs, their repertoire more or less identical to THE BAD POWELLS' – but with a humorous "jazz twist": Hear the disco classics in swing, Latin and even Dixieland versions that the composers would never have dreamt of...

### **THE MISTLETOE CHRISTMAS SHOW**

Enjoy a very silent night with the Hottest Christmas Band In The Universe: The evening starts off festively with some of the world's best known Christmas songs - spiced up with that special Powell's flavour, of course... Optionally, they can be supported by various soul legends, whose interpretation of the American Christmas classics is guaranteed to give you the goosebumps. And as the good spirits are heading for the climax, the Christmas ball turns into a disco ball, and the audience can dance their hearts out to THE BAD POWELLS show with the biggest hits from the 70s and early 80s!
